

## NOTIFICATION TO ALL STAFF REGARDING LANGUAGE

It has been brought to our attention that some individuals have been using foul language during the execution of their duties. Due to complaints from some employees who are more easily offended, this type of language will no longer be tolerated.

However we do realise the importance of staff being able to properly express their feelings when communicating with other employees. With this in mind, the Human Resources Section has compiled a list of code phrase replacements so the proper exchange of ideas and information can continue in an effective manner without risking offence to our more sensitive co-workers.
